

CHRISTIAN MURILLO

Full Stack Developer / Software Developer / Web Developer / Node JS Developer

Hi! I am **Christian Murillo**, I'm a quick learner and I can easily adapt new knowledge that I studied. I'm a Web Developer with a strong foundation in backend programming and designing database technically. I used to motivate my teammates when we are having a pile tasks. "**Deep Analyzing**", is the first thing I do before coding.

PERSONAL INFORMATION

 **PORTFOLIO:** <https://christianmurillo10.github.io>
 **EMAIL:** christianoroceomurillo@gmail.com
 **PHONE:** +(63) 929 503 5768
 **BIRTH:** January 1, 1996
 **LINKEDIN:** <https://www.linkedin.com/in/christian-murillo>
 **GITHUB:** <https://github.com/christianmurillo10>
 **ADDRESS:** 1922 Int. 14 Bo. Banana Obesis St. Pandacan, Manila

HIGHLIGHTS

- ✓ **Software Design**
- ✓ **Extensive programming knowledge**
- ✓ **Debugging and analysis**
- ✓ **User requirements gathering**
- ✓ **Experienced in Agile/SCRUM environment**

SKILLS

Web Development

ReactJS	★★★★☆
VUE JS/VUEX	★★★★☆
Node JS	★★★★☆
HTML/CSS/SCSS	★★★★☆
PHP	★★★★☆
MySQL	★★★★☆
PostgreSQL	★★★★☆
Javascript	★★★★☆
Typescript	★★★★☆
Google API (Maps)	★★★★☆

Framework

Express JS	★★★★☆
Next JS	★★★★☆
Nuxt JS	★★★★☆
Yii	★★★★☆
JQuery	★★★★☆

UI Library

React Material Ui	★★★★☆
Vuetify JS	★★★★☆
Bootstrap	★★★★☆

Infrastructure

EC2 (AWS)	★★☆☆☆
Elastic Beanstalk (AWS)	★★☆☆☆
S3 (AWS)	★★☆☆☆
Route53 (AWS)	★★☆☆☆
AWS Certificate Manager (ACM)	★★☆☆☆
DO Droplets (Digital Ocean)	★★☆☆☆

Tools/Application

JIRA
Confluence
Trello
Postman
VS Code
Git

EXPERIENCE

Mosed Corporation

Full Stack Developer (June 1, 2020 – Present)

- Interim team lead developer.
- Developed competition sites.
- Maintaining and modified existing backend RESTFUL API/Microservices and CMS.
- Maintaining existing AWS infrastructure.
- Plan, design and develop database for system enhancement.
- Managing team tasks using JIRA.

W-TECH SOLUTIONS (NEW ORIENTAL CLUB 88 CORPORATION)

- Developed a RESTFUL API for frontend game application.
- Plan, design and develop database for system enhancement.

TRANZEND SOLUTIONS AND TRADING CORPORATION

Software Developer (January 2, 2017 – July 20, 2018)

- Modified existing software to detect and correct errors, improve, and upgrade performance.
- Developed and upgrade reports for client's software requirements.
- Implemented and design some functions that use for future development.
- Wrote extensible and maintainable code as part of a team.
- Provide mentoring services to newly developers as needed.
- Collaborated closely with other team member to plan, design, and develop robust solutions.
- Plan, design and develop database for software requirements.
- Design, develop and implemented API for SMS software system.
- Research, design and implement a friendly user and advanced Google Maps Monitoring and Tracking System.

PROJECTS

Safety Crew Software Development Services – Health and Safety Monitoring

Freelance Project

ELS PHILIPPINES INC. – Automated Washing Machine

Freelance Project

KALINGAPP – Incident Monitoring using Geo-mapping with collaboration of Web-based and Android Application

Freelance Project

EACOMTECH INC. – Dynamic Webpage

Freelance Project

EDUCATION

❖ TERTIARY

- **Lyceum of the Philippines University**
Bachelor of Science in Information Technology
Muralla St. Intramuros, Manila
2014 – October 2016
- **AMA Computer University**
Bachelor of Science in Information Technology
Maxima, Quezon City, Metro Manila
2013 – 2014
- **Far Eastern University - East Asia College**
Bachelor of Science in Information Technology
Specialization of Animation and Game Developer
Nicanor Reyes St., Sampaloc, Manila
2012 - 2013

HOBBIES

- Watching tutorials about coding
- Motorcycle Riding
- Listening to Music
- Workout
- Playing Mind Games
- Movie Marathon
